| Works Description | <p>This project was based in Kent at Charles Darwin School.</p> <p>In the summer of 2016, H&V undertook phase 1 of the heating upgrade at Charles Darwin School. Phase 1 comprised of half of the school's heating being upgraded. This was completed in September 2016 and H&V were asked to carry out the second phase starting in the summer of 2017.</p> <p>Phase 2 consisted of stripping out and removing the old heating system and replacing with new.</p> <p>All new mains, running from the boiler room and through the second half of the school were installed.</p> |

In total 204 linear meters of Radiant Panels were installed within the small and large gym areas.

74 Radiators were installed throughout the hallways and offices.

47 Fan Convectors were installed within all the classrooms. These ranged from wall mounted to ceiling mounted units.
